EDUCATION

University of Tennessee, Knoxville Expected May 2027

B.S. in Geographic Information Science and Technology
Relevant coursework: GIS Programming, Terrain Analysis

Florida International University June 2022 – December 2025

Coursework in Crime Science; Minor in Political Science | GPA: 3.5

TECHNICAL PROJECT EXPERIENCE

Knoxville Urban Growth Based on Terrain | GEOG 454 GIS / Suitability Analysis

- Used ArcGIS Pro to assemble, project, and clip elevation, road, building, land-cover, water, floodplain, and zoning datasets for a consistent Knoxville study area.
- Analyzed LiDAR and DEM, DSM, DTM, and TIN elevation data and performed watershed delineation to examine topography and drainage conditions in the study area.
- Applied ModelBuilder and spatial analysis to derive slope and distance surfaces, reclassify suitability factors, and combine them through weighted overlay modeling.
- Created an ArcGIS StoryMap presenting interactive maps, source documentation, methods, assumptions, and findings for a nontechnical audience.

JobFinder | GEOG 312 Python / Streamlit

- Developed a Python and Streamlit map-based prototype that searches demonstration job data by location and applies user-selected filters.
- Designed a spatial decision-support interface to organize location, commute context, and job-fit information into usable results.

Church Atlas JavaScript / Web Mapping

- Built an interactive web map using JavaScript, Leaflet, and OpenStreetMap, with radius, denomination, belief, service-time, and visit-needs filters.
- Implemented distance/match sorting, favorites, side-by-side comparisons, route planning, and browser-based local storage.

Everglade Snail Kite Research / GIS Communication

- Used ArcGIS StoryMaps, scientific sources, imagery, and a critical-habitat web map to explain endangered-species ecology and relationships with native and invasive apple snails.

PROFESSIONAL EXPERIENCE

Raising Cane's | Cook March 2026 – Present

- Maintain accurate order preparation in a fast-paced team environment while following sanitation and cross-contamination controls.
- Operate grill and fryer stations, maintain and clean equipment, and complete station preparation reliably during shifts.

Ingles Markets | Bakery Closer November 2025 – March 2026

- Tracked inventory, maintained displays and cold-storage areas, and sanitized the bakery to prepare the department for the next shift.
- Handled customer orders and cake decorating while balancing service needs, accuracy, and daily closing responsibilities.

ADDITIONAL TECHNICAL KNOWLEDGE

Additional GIS knowledge: Remote sensing | **Other tools:** HTML, CSS, GitHub, Microsoft Word, Excel, PowerPoint
Certifications: First Aid, CPR, and AED
